PREPARING FOR WAR

The Indian Territory Trouble Not Yet Settled.

BOTH FACTIONS RECRUITING.

Locke and His Men Well Fortified and the Present Militia Unable to Capture Him. It Is Not Believed It Will Be Settled Until It Is Fought Out—United States Troops Ordered to the Scene, but Will Probably Be Too Late.

ANTLERS, I. T., April 1.—The situation here is a problem. There may be a patched-up peace and the warring may go on. If it is peace it will be enforced and unsatisfactory. Both parties want to wipe out their differences in blood. Active preparations for war have been going on for the past 48 hours. Both factions have been sending messengers throughout the country for more men, and their friends have freely responded. Arms and munitions for war and all camp supplies have been obtained in large quantities.

Locke is acting strictly on the offensive and the militia seem chary about making an attack. They are not as confident as they were before Tuesday's battle. It was thought that Governor Jones would arrive at the militia camp yesterday at Goodland and that some decisive action would be taken. He failed to reach Paris and no one knows his whereabouts. When last heard from he was at Denison. His men telegraphed inquiries for him but learned nothing.

There were 150 militia at Goodland at noon, but about 80 of them under command of Captain Durant left, saying they were going about 10 miles further northwest of Goodland and the same distance southwest from here. Locke, who was at his fort, was kept advised of every movement of the militia. The fort is built of heavy logs and is in the shape of a triangle, one corner of which reaches to a deep lake about 100 yards wide, which affords water and protection from assault in that direction. In the center is a mound that shelters his men from a crossfire. There are port-holes that cover all approaches. In the front and upon either flank is a stretch of small timber containing no tree large enough to shelter a man. To reach this slight cover the militiamen would have to go through an open field.

At 5 p. m. Locke had 74 men in the fort, which covered a quarter of an acre. Two hundred and twenty-five rounds of ammunition each, besides several days' supply of food, are on hand. In a short time 10 more men reached him and he was looking for a much larger force. His men were eager to aid him and wanted to go out and hunt the militia. However, it looks as if the strong hand of the government would be laid on them and they would be compelled to desist. In response to telegrams Commissioner Gibbons has received the following:

GAINESVILLE, Tex., March 31. To Commissioner J. C. Gibbons, Antlers, I. T.:

Do everything to preserve peace. Advise and induce, as far as possible, all United States citizens to obey the law. If anything happens, wire me at Ardmore.

C. R. STUART. Yesterday afternoon Mr. Gibbons received the following, which came in response to repeated and urgent telegrams:

MUSKOGEE, I. T., March 31. To John C. Gibbons, United States Commissioner, Antlers, I. T.:

Please wire situation today, giving full particulars.

LEO D. BENNETT, Indian Agent. To this Mr. Gibbons replied as follows:

ANTLERS, I. T., March 31. To Leo E. Bennett, Indian Agent, Muskogee, I. T.:

Opposing forces in camp a few miles apart preparing for conflict. Bound to have bloodshed unless relief is had. Hope United States citizens will not be involved. Am afraid they will. Will do all I can to prevent it. I believe your presence necessary.

J. C. GIBBONS. In a short time he received the following, which caused a feeling of relief to many:

MUSKOGEE, I. T., March 31. J. C. Gibbons, United States Commissioner, Antlers, I. T.:

Please notify leaders that unless they forthwith disband I will bring military aid and enforce peace. I start for Antlers on first train.

BENNETT, Agent. He immediately wired copies to the federal authorities at Paris, Tex., to the commanders of the militia and sent a copy to Locke. He went to Goodland at once and Captain Durant, who had been sent for, came in with his men who promised to hold up until he could hear from Jones.

Locke says positively he will not disband until the militia have done so and gone away. It is the opinion that one party or the other will attack before Bennett reaches here. Those who have lived here for years and know the spirit that dominates both factions do not be-

lieve it will be settled until it is fought to a finish. If a pitched battle is prevented a long guerrilla warfare will ensue. The leaders of both factions are doomed.

United States Troops Ordered There. WASHINGTON, April 1.—The Indian office thinks there is occasion for alarm over the situation in the Choctaw country, and fears further bloodshed. The people, it is said, appear to be in a mood to fight.

The government has decided to step in and endeavor to avert a conflict, and accordingly yesterday, after a conference between Secretaries Smith and Lamont, the general of the army directed the commander of the troops nearest the scene of threatened trouble to ascertain at once the true state of affairs, and do whatever in his judgment was best to preserve the peace.

GENERAL HIRAM BERDAN DEAD.

He Was the Inventor of the Famous Long Range Finder, Torpedo and Rifle.

WASHINGTON, April 1.—General Hiram Berdan, the inventor of the long range finder, torpedoes and rifle, died suddenly at the Metropolitan club in this city Friday afternoon at 4 o'clock. He had been ill for some time with angina pectoris.

He appeared in the club about 5 o'clock and went into the Loggia, where he had a short conversation with the secretary of the club, Major Sanger, to whom he remarked that he was not feeling very well. A few minutes later he engaged in a game of chess with Admiral Crosby; suddenly his head dropped, he began to breathe heavily and expired almost instantly. Dr. T. Morris Murray and Irving C. Rosse were summoned immediately, but could render no assistance.

The president of the club, Judge Davis, and several members were about him at the time.

General Berdan was born at Plymouth, Mich., about 1823. He was a man who enjoyed high social as well as official distinction. He was a colonel of the First United States sharpshooters on Nov. 30, 1861, and was brevetted brigadier general of volunteers for gallant and meritorious services in the battle at Chancellorsville, and a major general of volunteers at the battle of Gettysburg.

General Berdan was for several years in Russia, and because of his service to that government was awarded a considerable sum of money. He entered into contracts with Russia for furnishing the czar's army with large supplies of the celebrated rifle bearing his name.

A daughter of General Berdan was married to Marion Crawford, the well known writer, who met her in Russia, and his sister was the first wife of ex-Vice President Morton. General Berdan's death was at first attributed to heart disease, but a physician who was hastily summoned considered it due to cerebral hemorrhage, or apoplexy.

Train Goes Through a Trestle.

ATLANTA, April 1.—A special to The Constitution from Jug Tavern just received says: A train on the Georgia Southern and Florida railway went through a trestle a few miles from here yesterday evening and was totally wrecked. The engine remained on the track. Eight freight and two passenger cars fell a distance of 50 feet. They were torn into splinters. Steve Thomas, colored, a train hand, was killed and a number of employes and passengers were seriously injured.

Starting in With Millions.

TRENTON, April 1.—The American Press, an organization for the gathering and dissemination of news, filed articles of incorporation here yesterday. The capital stock is \$2,500,000, and the incorporators are Orland J. Smith of the American Press Association, Albert P. Langley of the Springfield Union, Robert Williams of the Paterson Call, Albert Lawson of the Cincinnati Tribune, and James M. Emerson of the Ansonia Sentinel.

An Attraction Himself.

WASHINGTON, April 1.—A Kansas man's application for the appointment of his daughter as one of the stamp-sellers at the world's fair postoffice on the grounds has been received. He says she is 24 years old, weighs 472 pounds, has had experience selling stamps in a fourth-class office, and will equal anyone at the work. A photograph accompanies the application and represents a girl of mammoth proportions.

Opera House Damaged by Fire.

INDIANAPOLIS, April 1.—The Dooey Opera House at Anderson was badly damaged by fire Thursday night. The fire originated on the stage. The insurance is \$25,000, which will scarcely cover the loss. The music hall on the third floor, in the front, of the building also suffered, also the offices of Major Dooey and others on the second floor, and George Greyser's jewelry store and J. S. Lee, druggist on the first floor.

Belt Presentation.

NEW YORK, April 1.—Miner's Eighth Avenue theater was crowded with local pugilists and sporting men generally last night when William E. Harding, on behalf of Richard K. Fox, presented the featherweight championship belt of the world to George Dixon. It was held, up to a few weeks ago, by Australian Billy Murphy. Dixon made a brief reply of thanks.

Injured in a Planing Mill.

CHILLICOTHE, O., April 1.—Edward Paulus received probably fatal injuries at Reed's planing mill yesterday. The young man is employed as an apprentice and while engaged in carrying out sawdust from beneath a planing machine, failed to observe a rapidly running belt against which his head struck with such force that he was thrown violently to the ground.

STATE OF TRADE.

How Things Are Going in the Commercial World.

BUSINESS AND ITS OUTLOOK.

R. G. Dun & Company's Weekly Report. An Improvement Shown Over Last Week in Nearly Every Line of Industry—Bright Prospects for the Future. Failures of the Week.

NEW YORK, April 1.—R. G. Dun & Company's weekly review of trade for April 1, says:

The fact of largest influences in the record of the past week has been the increased distribution of goods, which appears with better weather at nearly all points. The strengthening effect is already felt in some wholesale trades, and even in some manufactures. Building material, structural iron and steel, paints and glass, are helped. Collections already improve at many points. The stringency so often seen about April 1 does not appear here, nor are other money markets more close, pressure some weeks ago having led to adequate preparations.

Instead of rising, after the close of the Lancashire strike, cotton fell three-eighths, which may accelerate exports, though stocks of American cotton in Europe are a still a third larger than usual at this season. Wheat at Chicago had a sudden fall of 7 cents in one day, but as prices there have been 15 to 20 cents higher than at other western cities, and 8 cents higher than at New York, markets were very little affected anywhere else, and here are only an eighth lower. But the price in Great Britain is the lowest ever known. Corn fell 1-2 cents with small sales, and oats one-half, and the break in hog products reached 75 cents per barrel in pork and a cent in lard.

Exports in four weeks at New York have been \$5,155,000 less than last year, indicating a total for the month not far from \$76,000,000, while the increase in imports at New York alone has been about \$11,000,000, indicating a total for the month of more than \$57,000,000. This great excess following the excess in January and February is the basis of doubts about the immediate monetary future. The treasury has been gaining gold, but money here has advanced 2 1/2 to 6 per cent, and transactions in stocks have been mainly confined to local speculators and generally weak.

The situation in the great industries is distinctly improving, regardless of speculative uncertainties. Legitimate business shows no unsoundness, caution having long prevailed, and the volume is the largest ever known for the season. Failures in the first quarter of the year—3,203 in number—were fewer than in the past three years, and though in an amount of liabilities larger, the average of liabilities is still quite low—less than \$14,800. Trade in cottons has improved, though print cloths are an eighth lower, and knit goods dealers are jubilant.

The iron and steel business is a shade firmer, with improved demand for bar, plate and structural forms, and though rails do not sell, Bessemer iron is firm and steel stronger. The strength in the shoe trade is unabated, eastern shipments greatly exceeding those of any previous year. Copper is a shade weaker, heavy supplies of tin, checked the advance, while lead is a shade stronger. Coal is naturally weak, with some dissatisfaction in the pool. Lumber and building materials are everywhere in strong demand.

Improved distribution gives confidence to wholesalers at Boston, and textile mills are busy and sold well ahead; shoes are firm and leather very strong, and lumber has improved. Philadelphia notes large trade in dress goods, notions and millinery, increasing demand for paints and glass and for fruits, with other business steady. Baltimore reports larger demands for dress goods and notions, excellent for clothing, and good for shoes and hats. At Pittsburg the demand for finished goods and glass is more active. Rolled and pig iron in larger demand at Cleveland, and at Cincinnati the harness and carriage trades are making good gains and fully at work.

Chicago reports increase over last year in trade for the quarter, especially in dry goods, shoes and clothing. Smaller demand for provisions because of high prices, heavy eastbound shipments and increased demand for money. Collections have improved and money is easier. Receipts of wheat, butter and sheep are larger than last year, but of other products smaller, especially of grain and wool.

Trade at Milwaukee is good, though cautious, but collections unusually slow. Minneapolis reports fair trade, excellent in lumber, with a fair output of flour, and at St. Paul better weather gives more life.

Business is good at Omaha, especially in hardware, groceries and shoes; good at St. Joseph; improving at Kansas City, and fair at Denver and Salt Lake. At St. Louis trade is strong, especially in building and real estate, with better demand in clothing and dry goods.

Nearly all southern points report some improvement, and at Nashville no disturbance results, banks being well fortified. At Galveston large increase in cotton is noted, but timidity of capital and smaller loans than usual. At New Orleans lumber, building materials and sugar are strong and active, and other trade fair with money in ample supply.

The business failures occurring throughout the country in the last seven days as reported to R. G. Dun & Company, the mercantile agency, by

telegraph, number for the United States 160, and for Canada 28, or a total of 194, as compared with totals of 240 last week and 220 the week previous to the last.

WHITE HOUSE VISITORS.

But Very Few People Received by the President.

WASHINGTON, April 1.—The president received few callers yesterday. Representative Dewitt Warner of New York introduced Robert H. Derry, a constituent who wants to be public printer, and Secretary Carlisle presented Bartlett of South Dakota, who is willing to take another office now that he has failed to be land commissioner. Senator Camden of West Virginia introduced a delegation.

It is now said that Hannis Taylor of Mobile will be appointed minister to Spain, and John Van Allen of New York minister to Italy. Taylor is a well known constitutional lawyer, and Van Allen belongs to the New York four hundred.

A New Railway Federation.

CHICAGO, April 1.—D. G. Ramsey, grand chief of the Order of Railway Telegraphers, who was in Chicago Monday, said: "I have been in consultation with Chief Arthur of the Brotherhood of Locomotive engineers, and I can say that there is a movement on foot to organize a new federation. Mr. Arthur fully sees the need of a new federation, and particularly since the trouble on the Ann Arbor. The new federation will be composed of all classes of railway employes from engineers to boiler makers. A strike can not be ordered by any one organization without the full consent of all the orders. This matter will be disposed of at the next meeting of the Order of Railway Telegraphers."

Inquest in the Poison Tragedy.

JACKSON, Mich., April 1.—The testimony in the inquest upon the death of George W. Haight, night gatekeeper, at the prison Monday morning, was concluded at 11 o'clock yesterday. The gist of the jury's verdict is that George W. Haight came to his death by a poisonous drug known as prussic acid at the hands of E. Irving Latimer. The jury also find that Latimer was able to secure the drug through the carelessness of G. Major, clerk, and through the carelessness and neglect of Night Captain Gillo of the prison.

Rotary Two-Color Printing Press.

BALTIMORE, April 1.—Mr. F. X. Hooper has invented a rotary printing press which prints two colors at once from Princeton curved stereotyped plates. The press is the first in which this double color printing has been accomplished by the rotary principal, and it can make a speed, as shown at a trial Thursday, of 7,500 impressions or 3,500 sheets an hour. It is stated that the machine can print anything from the smallest label to a flour bag.

Valuable Dog, This.

NEW YORK, April 1.—When the steamship Paris reaches this port she will be boarded by a squad of detectives, who will search every nook of the big ship for Fullerton, the celebrated grayhound, stolen from the Liverpool kennels of the nitrate king, Colonel North. Colonel North has declined princely offers for Fullerton. The dog has never had a rival as a courser. The Waterloo cup has been awarded him four times in succession.

Iron Hall Troubles in Pittsburg.

PITTSBURG, April 1.—Attorneys Kennedy and Smith have filed a bill in equity against A. P. Robinson, F. D. Evans, S. E. Vogel and W. Grabowski, and every member of the local branch of the Order of the Iron Hall in this county. The design of this suit is to compel this local branch, No. 574, to turn over all moneys and papers to George S. Graham, the receiver of the Order of the Iron Hall.

Fees for Pension Attorneys.

WASHINGTON, April 1.—Assistant Secretary Bussey of the interior department has rendered a decision holding that in claims under the act of June 27, 1890, for increase of pension on the ground of new disabilities, the attorney's fee shall not exceed \$2, thus overruling the commissioner of pensions, who had allowed a \$10 fee. It is said that the decision will affect over 200,000 claims.

Bootblack Beaten to Death.

PATERSON, N. J., April 1.—James Rose, a bootblack, 15 years of age, and William Nogle, a baker's helper of the same age, engaged in a quarrel yesterday on Prospect street. Nogle picked up a heavy stick and beat the bootblack into insensibility and badly fractured his skull. Rose was removed to the hospital in a dying condition.

Boys Sentenced to the Penitentiary.

CHICAGO, April 1.—In the criminal court yesterday William B. Lunck and Thomas Lovern, two boys, were sentenced to terms of 40 years in the penitentiary for a brutal murder and robbery committed a year ago on Western avenue, in this city. But for their extreme youth, the jury would have found the death sentence.

Obtaining News Quickly.

NEW YORK, April 1.—In answer to a request made by the American Press Association for information regarding the life of the Count De Champagne, the Dalziel News agency cabled from New York to its Paris office and received the desired information in New York within 14 minutes from the receipt of the request.

SEWANEE, Tenn., April 1.—The funeral of General Edmond Kirby Smith, late commander of the eastern department of the United Confederate Veterans, and the last of the full generals of the Confederacy, took place here yesterday afternoon with military honors. An immense crowd was in attendance, and many were distinguished men. Among them were General Stephen D. Lee of Mississippi, Rev. Dr. Smith, president Trinity college, Hartford, and General A. J. Vaughan of Tennessee.

A special train from Nashville brought a regiment of the Tennessee national guards and a battalion of Washington artillery under command of Adjutant General Fyfe, together with several delegations from the different Confederate Veterans posts. Colonel Baker of the Confederate Veterans had charge of the military services which were carried as completely as the regulations permitted. The remains of General Smith were interred in the little cemetery at the outskirts of the village.

WEATHER INDICATIONS.

For Kentucky, fair, followed by light local showers in western portions; winds shifting to westerly; cooler Saturday night.

The Cincinnati Enquirer barely noticed the appointment of Claude Meeker to be Consul at Bradford, England. Meeker some years ago was one of that paper's brightest writers, but he evidently lost the good will of Mr. McLean when Governor Campbell's Private Secretary. But Mr. Meeker is evidently not troubling himself over the matter. He has demonstrated the fact that he can get along very well without the Enquirer's aid, good will or sympathy.

PURELY PERSONAL.

Mr. John Short has returned from Point Pleasant.

Miss Katie Noyes, of Charleston, W. Va., is visiting Miss Lena Menns.

Mr. Thomas Thomson, of Ripley, was in town yesterday en route to Carlisle on business.

Mr. and Mrs. T. C. Wilson, of Sand Hill, Lewis County, were in Maysville yesterday.

Miss Annie Marr, of Maysville, is the guest of friends in this city for a few days. —Portsmouth Blade.

Dr. J. S. Appleman, of Louisville, was at the Central yesterday looking after Dr. Stockdale's patients.

Mrs. John Flanagan, of Peed, Ky., returned home yesterday after spending a few days here with friends.

Mr. and Mrs. S. N. Meyer returned last evening from Washington City, where they spent the past winter.

Mrs. Marion E. Wood and son, of Newport, are visiting her parents, Mr. and Mrs. Ginn, of Forest avenue.

Misses Annie Drennen and Nellie Buckley, of Murphysville, are visiting their cousin, Mrs. James Swift, of East Grant street.

Mrs. John T. Wilson and niece, Miss Maude Scott, arrived last evening from Cincinnati, and are guests of Mr. and Mrs. Jos. F. Perrie.

Mr. R. B. Lovell has a copy of the New England Christian Advocate published in 1832. Although it is sixty-one years old, the print is as clear as the day it came from the press. It was presented to him by Mr. Everett Brightman.

SAYS THE DOVER NEWS: "Mr. Charles D. Osborne, son of Mr. and Mrs. W. Scott Osborne, of Tuckahoe, who has been employed at the World's Fair since December, has been promoted. He now has an office of his own in the Transportation Building and has charge of every car load of exhibits which arrives. He has thirty men under him. Mr. Osborne is only twenty years of age, and is discharging his duties in a most creditable manner."

THE Democratic primary at Paris resulted as follows: For Mayor, Chas. D. Webb, 189; W. T. Brooks, 105; W. H. Ingels, 82; W. H. Currens, 37; W. H. Fisher, 12. Mr. Webb, the nominee, is a compositor on the Kentuckian-Citizen. For Marshal, James Merriugh was elected without opposition. For Deputy Marshal the vote was: Geo. M. Hill, 223; Ben Spears, 197. No opposition to the old Councilmen from First and Second wards. In Third ward W. T. Overby was elected by 1 majority over Tom Moran.

Mr. R. D. Wilson, of Vanceburg, has withdrawn his application for appointment as Special Agent at Seal Islands, Alaska. The Washington correspondent of the Louisville Times says: "He filed his application, a week or so ago, accompanied by a number of strong letters of indorsement, and his friends believed he stood a good show of getting there, but when he learned where he would be stationed, and that he could not have his wife with him all the time, he concluded that the job would not suit him, and so Thursday he withdrew his papers, saying that he had changed his mind, and that he didn't want a Government office, anyhow. It is perhaps needless to remark that there are very few gentlemen built like Mr. Wilson."

Naval Rendezvous Hampton Roads.

The Chesapeake and Ohio will sell excursion tickets to Norfolk or Old Point Comfort and return for regular trains leaving Cincinnati April 15, 1893. It was long ago said that the navies of the world could ride in safety in Hampton Roads harbor. The rendezvous, April 17th, will show that this is true, as representative vessels from the greatest nations of the world will meet there and go through many interesting maneuvers. This is something that will only be seen once in a life time. Tickets will be low enough for every one to avail themselves of the opportunity. For further information, apply to C. and O. ticket agents.

The Whisky Tax.

The State Board whose duty it is to fix the taxable value of whisky met at Frankfort yesterday and decided to assess all distilled spirits at \$11. CLEVER SURGERY.

A Maysville Man the Subject of a Remarkable Operation.

What the Enquirer Says of Joseph Archdeacon's Case—Complete Recovery Probable.

Mention was made a few weeks ago of the fact that Joseph Archdeacon had been taken to the Good Samaritan Hospital at Cincinnati, accompanied by his physician Dr. Owens, to undergo a difficult surgical operation, rendered necessary by an injury to his head.

The BULLETIN's readers are no doubt familiar with the case. Archdeacon was struck on the head with a rock one night last fall by a man from Washington, the blow laying open his scalp and knocking him senseless.

On being taken to the home of his parents, he was unconscious for some time and an examination showed that fragments of the skull had imbedded themselves in the brain, and a large section of the skull had been depressed. The Enquirer in speaking of the case says: "The interference which this wound caused with the functions of the brain gave rise to the most extraordinary symptoms in the case. Two days after the accident young Archdeacon was fully conscious and apparently improving rapidly, but the power of speech had absolutely left him. By gestures he managed to make his wants known to the members of the family who attended him. He could hear well enough, but could not speak a word, and his whole right side was completely paralyzed."

"Several weeks ago he was brought to the Good Samaritan Hospital for treatment, his condition being unimproved. Since his arrival at the hospital he has improved slightly in some respects, but the paralysis has shown signs of becoming more general. To save his life it was necessary that the difficult operation of trephining should be performed and that the fragments of bone should be extracted from the patient's brain. Thursday the operation was performed."

"Before the patient was taken to the operating room Dr. Connor told his sister, Miss Mamie Archdeacon, that the outcome of the work of the surgeons was more likely to mean death than a cure. The operation was absolutely necessary, but it was the most hazardous in surgery."

"The work of the surgeons occupied an hour. A circular section of the skull was cut out and the depressed bone was raised. The fragments of bone imbedded in the brain were extracted and the wound was carefully dressed with antiseptics. When the patient revived from the effects of the anesthetic a most remarkable change had taken place in his condition. He could talk almost naturally, and the paralysis had lessened to such an extent that he could move the arm which had been paralyzed for weeks. Dr. Connor says that his chances for complete recovery are excellent."

The Enquirer says it was one of the most remarkable operations in the surgical annals of Cincinnati.

Mrs. W. H. MEANS, who has been very ill this week, is much better and improving.

A BIG COUNTRY FIRE.

The Handsome Residence of Mr. Thos. Luttrell Burned—Light Insurance.

Brief mention was made in yesterday's issue of THE BULLETIN of the burning of Mr. Thomas Luttrell's handsome residence on the Fleming pike a few miles from Maysville.

The fire was discovered about 9:30 a. m. It had started on the roof from sparks from a chimney, and as a stiff breeze was blowing it seemed that the handsome home was doomed to complete destruction.

The neighbors responded promptly, however, and it is said fully seventy-five men and boys were soon on the scene, fighting the flames and saving the household goods. The fact that the ell of the building and most all the furniture were saved shows what effective work was done.

Men never worked harder, and Mr. and Mrs. Luttrell are very grateful to all for the timely assistance rendered.

Mr. Luttrell places the damage at \$8,000, and as he carried but \$3,000 insurance his loss is a heavy one. The insurance is in the Aetna.

An appeal was sent to this city for a fire engine. One was taken out by Messrs. Wells & Biggar, but it wouldn't work after they reached the scene with it. Luckily, however, the flames had been gotten under control.

PITTSBURG, April 1.—Thursday afternoon three quarrymen named Houseman, Ryan and Kimmell, working in Ryan & Brown's stone quarry near Etna station, on the Pittsburgh and Western railroad, were blown up by an explosion of dynamite. The workmen had ignited a fuse leading to a blast and retired to a place of safety. The fuse was so slow that they concluded it had been extinguished and returned to re-light it. Just as they reached the spot a terrific explosion occurred. Houseman died from his injuries during the night. Ryan is in an extremely critical condition, and can not recover. Henry Phelps of Massachusetts, property clerk of the agricultural department, has resigned and D. M. Hall of Maine has been appointed to the place.

The Wisconsin senate passed an anti-Pinkerton bill yesterday morning after striking out a clause permitting railroad companies to employ such persons.

B. T. Hayne Bell, a prosperous farmer of Renno, Laurens county, S. C., committed suicide by cutting his throat with a razor. No cause is known for the act.

The 5-story building 120 to 137 Front street, Philadelphia, owned and occupied by the Welkel & Smith Spice company, were partially destroyed by fire. Loss, \$75,000; insured.

A brigdeman employed on Steel Mackay's spectaturn at Jackson park, Chicago, was killed Friday night by falling timbers. This is the second fatal casualty within a few weeks.

Two freights collided on the crossing of the Illinois Central and Michigan Central at Seventieth street, Chicago, Friday night, and two trainmen were hurt. The Illinois Central engine was ruined.

Dennis Geoghegan, the Brooklyn wife murderer, who was to be executed in Sing Sing prison on April 10, has been served with a stay of execution. He will have to be taken to New York for re-sentence.

Rev. Llewellyn Briggs, pastor of the Second Universalist church of Lynn, Mass., for the past six years, died Friday. He was born in Providence in 1839, was educated in the public schools and St. Lawrence university, New York.

ABERDEEN FLASHES.

The M. E. revival continues, with nightly additions.

Editor Havens and Wm. Smith were in Georgetown Thursday.

B. C. Farley was in Georgetown on legal business Wednesday.

Miss Nettie Henton, Glipie Hutsell and Wm. Bradford were the High School graduates this year.

Mrs. Lyons and daughter, Mrs. Wm. Gray, attended the Easter Carnival at Ellsberry Friday night.

W. A. Rist is in Georgetown to-day after the election paraphernalia—booths, tickets, etc. Our elections all go by the jump of the kangaroo.

The coons—Ross Donaldson and Arthur Hodge—who were arrested for stealing, drew in the Mayor's Court the respective prizes of \$9.00 and \$2.

If you want a pension, a claim collected, insurance policy, or anything in that line, call on Mayor Ellis, as he is No. 1 and is always successful. Office on Second street.

J. E. Bradford has closed his school, and has the satisfaction of knowing that he carries with him the good will of parents and pupils, and that the results obtained were highly satisfactory.

It is reported that A. L. Hudson and Miss Mae Waldron will be united in marriage next week. The BULLETIN takes this opportunity of wishing them a long and prosperous life, as they are estimable young people and entitled to all success.

The shantytown crowd caused a great deal of excitement by their drunken quarrels Friday night. The shantytown business is getting to be a nuisance and should have a gentle quietus put on it. The mouth of Fishcut creek seems to be a favorite resort for them, and the neighbors in that locality are terribly annoyed by them. A full crew for one of the crafts is composed of three or four drunken men, one or two women and a half dozen dogs.

The most disgusting sight ever witnessed on our streets was the capers cut Friday evening by a trio of saddle-colored fly-by-nights of Maysville. Their frequent trips to a certain saloon did not tend to elevate their morals, as their language would make a stone blush. Do we have to stand such work as this, that all of the degraded beings of Maysville shall come here and do as they please? Ain't it about time a halt should be called? Our officials should look a little out in these matters, and some of these things in the shape of women be made to know their places.

Monday is election day. Voters should be wary and not scratch their ticket. Make it straight Democratic. Cheeseman for Treasurer, and Warren for Trustee should be re-elected by old-time majorities. They are good men, make good officials and are deserving of support. Mr. Cheeseman accepted the Treasuryship when it was in a muddle and straightened out the kinks acceptably, and to the interests of the taxpayers, and is entitled to a hearty support. And everybody knows that Mr. Warren has made the best Trustee we ever had, and serves the people's interest with care and fidelity.

CURRENT TOPICS IN SOCIETY.

Miss Bessie Owens was the guest of Miss Louise Andrews, of Flemingsburg, Thursday.

Mr. Duke Watson and family have removed to the pleasant old Newell residence on Third street.

Miss Margaret Andrews, of Flemingsburg, and Miss Mac Marshall, of "Cottage Cliff," were in Maysville this week.

The Masons we are glad to see are making a move in the right direction; that of collecting a library for the use of themselves and their families. The Oddfellows have a fine library of two thousand volumes.

This is the season of "openings;" always attractive to the feminine portion of the community who are drawn thither for the purpose of selecting bonnets with which to adorn themselves on Easter Sunday.

Dr. Adamson will soon take possession of the property on West Second street, purchased by him last fall. He will convert the residence into two houses of modern style, one of which will be occupied by Dr. A. and his family. The other will be offered for rent.

This is the time of year when everything wakens from its long winter sleep; when flowers brighten the air and birds sing. Then it is that we receive "free gifts, and for nothing" charmingly illustrated stories which pathetically set forth the trials and tribulations of two devoted lovers said "T's and T's" caused by the cantankerousness of their respective parents. But a kind friend pitying the poor youngsters sends as an Easter present to the old people, Dr. Humbug's spring renovator. Their crankiness is accordingly banished and everything ends happily for the lovers.

CHARTER FOR FOURTH CLASS CITIES.

Editor Bulletin—Dear Sir: I noticed an editorial in the daily of Tuesday last that expressed alarm as to the character of the charter that would be passed by the Legislature for cities of the fourth class, and urging the citizens to take some action. I am glad to assure you that Dr. Frazee and I have endeavored to learn the wishes of our constituents, and, to the best of our ability, will carry out their wishes and secure a charter that will be acceptable. A large majority of the cities of the fourth class are much smaller than Maysville, and some provisions desired by our citizens are not acceptable to the representatives of those cities. Unfortunately for us the smaller cities control a majority of the Legislators, and we will have to concede some things in order to gain others. You can rest assured that all things possible will be done for the interests of our city. Very truly,
GARRETT S. WALL.
